OPEN BURN PERMIT STANDARD CONDITIONS

1. The permission to burn in no way relieves the permittee of their obligation to comply with any other local, county, state or federal rules or regulations.
2. This application becomes the burn permit once signed by the designated Central Jackson County Fire Protection District representative.
3. A representative/employee of permittee shall be present during all burning to ensure compliance with this permit and to make certain the fire(s) are out after 5:00 p.m.
4. Only tree trunks, tree limbs, leaves and brush originating on the site may be burned. For permits allowing the burning of untreated wood, only waste meeting the definition of "untreated wood" may be burned.
5. The distance from the burn site to the nearest occupied structure (residence or business) must be greater than 200 yards, unless an Air Curtain Destructor is used or waivers were obtained.
6. Burning will take place only between 7:00 a.m. and 5:00 p.m. and within any more restrictive burn times that may be applicable (e.g. the St. Joseph and St. Louis areas).
7. Should a problem arise from the burning, such as a public health hazard, nuisance, or a hazard to vehicular or air traffic, the permittee must correct the problem immediately.
8. This permit is effective for 60 days from the date issued.
9. This permit will be revoked immediately for failure to fully comply with any of the conditions and restrictions.
10. The permittee shall notify the local fire department each day before starting any burning.
11. Any other permits required by the State of Missouri Department of Natural Resources (i.e. NPDES Land Disturbance Permits) must be applied for and obtained. Failure to do so may result in termination of this permit. Please contact your local Regional Office regarding other possible permitting requirements.

DEFINITION

Untreated wood – Lumber and other wooden materials that have not been chemically treated for resistance to moisture, fire, fungi, insects and other pests, or has not otherwise been treated or manufactured with chemicals, or that does not contain adhesives or resins. Untreated wood does not include plywood, particleboard, chipboard or wood with other than insignificant quantities of paint, coating or finish.

SPECIAL CONDITIONS

All tree and vegetation materials suitable for other uses such as fireplace wood, posts, saw logs, etc. should be removed prior to burning.
